109 On the Insert tab, the galleries include items that are designed to coordinate with

110 overall look of your document. You can use these galleries to insert tables, headers,

111 footers, lists, cover pages, and other document building blocks. When you create

112 pictures, charts, or diagrams, they also coordinate with your current document

113 look. You can easily change the formatting of selected text in the document text by choosing

114 a look for the selected text from the Quick Styles gallery on the Home tab. You can

115 format text directly by using the other controls on the Home tab. ¶

116 ¶

117 Most controls offer a choice of using the look from the current theme or using a look

118 that you specify directly. To change the overall look of your document, choose

119 Theme elements on the Page Layout tab. To change the looks available in the

120 Style gallery, use the Change Current Quick Style Set command. Both the Theme

121 gallery and the Quick Styles gallery provide reset commands so that you can

122 restore the look of your document to the original contained in your current template.

123 On the Insert tab, the galleries include items that are designed to coordinate with the

124 overall look of your document. ¶

125 ¶

126 You can use these galleries to insert tables, headers, footers, lists, cover page

Outside Borders and Shading

On the Insert tab, the galleries include items that are designed to coordinate with the overall look of your document. You can use these galleries to insert tables, headers, footers, lists, cover pages, and other document building blocks. When you create pictures, charts, or diagrams, they also coordinate with your current document look. You can easily change the formatting of selected text in the document text by choosing a look for the selected text from the Quick Styles gallery on the Home tab. You can also format text directly by using the other controls on the Home tab. Most controls offer a choice of using the look from the current theme or using a format that you specify directly.

To change the overall look of your document, choose new Theme elements on the Page Layout tab. To change the looks available in the Quick Style gallery, use the Change Current Quick Style Set command. Both the Themes gallery and the Quick Styles gallery provide reset commands so that you can always restore the look of your document to the original contained in your current template.
